In Large Bulk Quantity

Product Identification  
Display Boards

Since 1916 Auveco (Auto Vehicle Parts Co.) has been manufacturing and distributing specialty automotive and industrial fasteners. With programs like **Body Hardware Master** and the **trilingual AuvecoPak retail package** as well as technology based solutions such as our **FasTrack Cost Recovery software** and **e-commerce web site (auveco.com.)**, Auveco is the world's leader in servicing our customer's needs for body hardware and specialty fasteners through our network of Distributors around the world.

We market our products through traditional channels of distribution, **selling only to authorized Distributors and O.E. manufacturers** in three types of packaging: small "unit package" quantities, a one price "retail program" for the "PBE" Jobber store and in large "bulk quantities" for the Expeditor / Distributor and O.E. manufacturer. In addition, we offer a variety of different types of assortments and merchandising aids to ensure that all the customer's needs are met.
