RIGGING HARDWARE

Choosing the Best Hardware for Rigging and Lifting

The correct choice of rigging hardware depends on many variables, such as the different weather conditions they must withstand, the materials they are interacting with, and the safety factors involved. With so many options, it's important to differentiate between each piece of equipment and figure out what is best for each unique lifting situation.

Rigging Hardware is an invaluable source of safety in many industrial, commercial, and recreational applications.

- Theater and stage equipment such as cable, bolt snaps and D-rings are used to attach valuable items to harnesses and life lines.
- Snap hooks, anchor chains, and trailer safety chains for the Recreational Vehicle Industry.
- Quick Links, cable, cable clamps, eye bolts, and thimbles are all useful ways to stay safe with outdoor activities such as zip-line and rope courses.
- All of our cable supplies can be paired with your specific type of cable requirements.

Stanley Industries Inc. now offers a wide range of solutions for your rigging needs including hard to find, brand specific items. If you have any questions or want to request a quote, please contact us at **800-253-2658**.
