

STANLEY INDUSTRIES INC  
CONVEYOR INDUSTRY FASTENERS

# TROLLEY BOLTS

Stanley Industries Inc. is an experienced materials handling partner to the Conveyor Industry. For over 50 years we have been an integral source for the fasteners specifically used throughout the design, manufacturing, and servicing of multiple types of Conveyor Systems. Since vibration plays a major role in conveyor operation, finding the best suited vibration resistant fasteners is key. You will find our inventory to include the latest technology in fasteners that are proven resistant to vibration, for example:

- Trolley Bolts with Locking Patch
- Roller Turn Bolts
- Side Guide Bolts
- Vibration Resistant Disc Lock® Washers
- Slotted Hex Nuts
- Anco Locknuts
- Clevis and Cotter Pins ... and more

We offer a wide variety of plating and coatings in addition to pre-applied adhesives commonly used on Trolley Bolts. Custom sizes and per print parts are no problem, send us your custom fastener drawings — our specialty!  
To learn more about our wide range of fastening solutions for your Trolley and Conveyor Systems, contact us at 800-253-2658.

**FREE DELIVERY IN THE DETROIT METRO AREA!**
